

Awards in Excellence

Outstanding Spinal Care Technology Innovation

Applicant Information

Company Name: _____ Date: _____

Applicant Name: _____ Title: _____

Address _____ City _____ Zip _____

Contact Telephone: _____ Email: _____

Name of Technology Submitted: _____

Category of Technology:

- FDA-approved mobile medical applications (Apps)
- General hospital/ASC devices and therapeutic products
- Implant and tissue-replacement products (includes orthopedic, tissue implants, instruments)
- Radiological and electromechanical devices (includes diagnostic imaging devices, energy-emitting therapy devices)
- Surgical equipment, instruments and supplies

To be eligible for entry, technology must be commercially available (able to be ordered or purchased) by December 31 in the year prior to the competition. New technology applications are accepted where the patent was invented and/or developed by the practitioner with written consent from the OEM.

Additional eligibility requirements include:

- Technology commercially available in any country is eligible
- All applicable entered technology must be approved either by U.S. FDA or other relevant body outside of the USA
- Technology previously entered but not selected as finalists or award winners may be entered again.
- Entries are not accepted from jurors, their companies, or those companies' subsidiaries in the year they act as jurors.

Please include a cover letter along with a description of the technology and its relevant applications for spinal care. Marketing information such as brochures or flyers may be included.
